▼ What does this report contain?

This report contains a list of students with enrollment in the next academic term who have not yet satisfied area A2 or B4 requirements. The relevant next enrollment term is updated after 60% of the current semester has elapsed.

▼ How do I use this report?

To navigate between different reports on the dashboard, click on the tab name at the top corresponding to the report name. To filter your results, use the prompts on the left hand panel under the heading Filter Your Results.

## Data Collection

### Who Has not Completed A2 and B4

One of the questions we need to be able to answer on a regular basis is, “Who still needs to complete A2 and B4”?

The “A2B4 Needed” dashboard in the student data warehouse provides information about which students in a particular admit term, or major, or college still need A2 and B4.

It also gives information about which A2 or B4 course a student is enrolled in during the current semester, if a student is in the “needs to complete” category.

Columns in the report are

- Student ID
- First and Last Name
- College
- Major
- Email
- Admit Term
- Academic Level
- Admit Math Category
- Admit Writing Category
- Area Needed (B4 and/or A2)
- Next term
- A2 and B4 course enrolled in next term

The “A2B4 Attempts” tab allows you to quickly see the history of A2 and B4 attempts for a student who has not completed A2 or B4. It helps the advisor see if the student is struggling and needs to repeat or if the student has not attempted at all.

The screenshot shows the 'A2 B4 Attempts' tab selected. On the left is a 'Filter Your Results' panel with dropdown menus for Student ID, Semester, and GE Area, and 'Apply' and 'Reset' buttons. On the right is a table titled 'A2B4AttemptHistory' with columns for Student ID, Last Name, and First Name. The first row of data is partially visible and redacted with black boxes.
